RESIDENT CENSUS AND CONDITIONS OF RESIDENTS

(use with Form CMS-672)

GENERAL INSTRUCTIONS:

THIS FORM IS TO BE COMPLETED BY THE FACILITY AND REPRESENTS THE CURRENT CONDITION OF RESIDENTS AT THE TIME OF COMPLETION

There is no federal requirement to automate the 672 form. A facility may use its MDS data to assist in completing the entry fields for the 672 form, however, facilities should ensure that the MDS information is not simply counted and copied over into the form. **All conditions noted on this form that are not identified on the MDS must be counted manually.** This information is designed to be a representation of the facility during survey; it does not directly correspond to the MDS data in every field. **The information entered on this form must be reflective of all residents as of the day of survey; therefore all information entered must be independently verified.**

Following certain entry fields, the related MDS 3.0 item(s) is noted. Remember, that although MDS items are noted for some fields, the field itself may need to be completed differently to reflect the current status of all residents as of the day of survey. The MDS items are provided only as a reference point, the form is to be completed using the time frames and other specific instructions as noted below.

Where a field refers to the “admission assessment,” use only the counts from the first assessment since the most recent admission/entry or reentry (OBRA or Scheduled PPS, i.e., A0310A = 01 OR A0310B = 01 or 06 OR A0310E = 1 for each resident).

For the purpose of completing this form the terms: “facility” means certified beds (i.e., Medicare and/or Medicaid certified beds) and “residents” means residents in certified beds regardless of payer source.

INSTRUCTIONS AND DEFINITIONS:

Complete each field by specifying the number of residents in each category. If no residents fall into a category enter a “0”.

Provider Number: Facility CMS certification provider number. A0100B; leave blank for initial certifications.

Block F75: Residents whose primary payer is Medicare.

Block F76: Residents whose primary payer is Medicaid.

Block F77: Residents whose primary payer is neither Medicare nor Medicaid.

Block F78: Residents for whom a bed is maintained on the day the survey begins, including those temporarily away in a hospital or on leave. This should be representative of residents in the nursing facility or those who have a bed-hold.

ADLS (F79 – F93): To determine resident status, unless otherwise noted, consider the resident’s condition for the 7 days prior to the survey. Horizontal totals across the three columns (Independent, Assist of One or Two Staff, and Dependent) must equal the number in Block F78, Total Residents, for each of the ADL categories (Bathing, Dressing, Transferring, Toilet Use and Eating).

Bathing (F79 – F81): This includes a full-body bath/shower, sponge bath, and transfer into and out of tub or shower. G0120A = 0 for F79, G0120A = 1, 2, OR 3 for F80. OR G0120A = 4 for F81.

Facilities may provide “setup” assistance to residents such as drawing water for a tub bath or laying out clothes, bathing supplies/toiletries, etc. Also, a resident may only need assistance with washing their back or shampooing their hair. If either of these are the case, and the resident requires no other assistance, count the resident as independent.

Dressing (F82 – F84): How the resident puts on, and takes off all items of clothing, including donning/removing prostheses (e.g., braces and artificial limbs) or elastic stockings. G0110G1 = 0 for F82 OR G0110G1 = 1, 2, OR 3 for F83 OR G0110G1 = 4 for F84.

Facilities may set out clothes for residents. If this is the case and this is the only assistance the resident receives, count the resident as independent. However, if a resident receives assistance, such as with dressing, donning a brace, elastic stocking, a prosthesis, or securing fasteners, etc. count the resident as needing the assistance of 1 or 2 staff, as appropriate.

Transferring (F85 – F87): How the resident moves between surfaces, including, to or from bed, chair, wheelchair, or standing position. (EXCLUDES transfers to/from the bath/toilet). G0110B1 = 0 for F85 OR G0110B1 = 1, 2, or 3 for F86 OR G0110B1 = 4 for F87.

Facilities may provide “setup” assistance to residents, such as handing equipment (e.g., quad cane) to the resident. If this is the case and is the only assistance required, count the resident as independent.

Toilet Use (F88 – F90): How the resident uses the toilet, commode, bedpan, or urinal; transfers on/off toilet; cleanses self after elimination; changes pad(s); manages ostomy or catheter, and adjusts clothing. If all that is done for the resident is to open a package (e.g., a clean incontinence pad), count the resident as independent. G0110I1 = 0 for F88 OR G0110I1 = 1, 2, or 3 for F89 OR G0110I1 = 4 for F90.

Eating (F91 – F93): How a resident eats and drinks, regardless of skill. Do not include eating/drinking during medication pass. Includes intake of nourishment by other means (e.g., tube feeding, total parenteral nutrition, includes IV fluids administered for nutrition or hydration). Facilities may provide “setup” activities, such as opening containers, buttering bread, and organizing the tray; if this is the case and is the only assistance a resident needs, count this resident as independent. G0110H1 = 0 for F91 OR G0110H1 = 1, 2, or 3 for F92 OR G0110H1 = 4 for F93.
