

Previous day's adult admissions with confirmed COVID-19, broken down by age

Total previous day's number of admissions of confirmed COVID-19	<input type="text"/>
18-19	<input type="text"/>
20-29	<input type="text"/>
30-39	<input type="text"/>
40-49	<input type="text"/>
50-59	<input type="text"/>
60-69	<input type="text"/>
70-79	<input type="text"/>
80+	<input type="text"/>
Unknown Age	<input type="text"/>

Of the previous day's total number of admissions of adults with confirmed COVID-19, total number of admissions where COVID-19 is the primary diagnosis/cause for admission

Total number of adult confirmed COVID-19 patients who are vaccinated for which COVID-19 was the primary diagnosis/cause for admission

Total number of adult confirmed COVID-19 patients who are partially vaccinated or unvaccinated for which COVID-19 was the primary diagnosis/cause for admission

Total number of adult confirmed COVID-19 patients whose vaccination status is unknown for which COVID-19 was the primary diagnosis/cause for admission

Of the total number of adult confirmed COVID-19 patients where COVID-19 is the primary diagnosis/cause for admission and who are vaccinated, how many are age 65+

Revised questions

Sum of these three fields should equal total admission in field above

This field should be a subset of vaccinated cases identified above

Previous day's adult admissions with suspected COVID-19, broken down by age

Total previous day's number of admissions of suspected COVID-19	<input type="text"/>
18-19	<input type="text"/>
20-29	<input type="text"/>
30-39	<input type="text"/>
40-49	<input type="text"/>
50-59	<input type="text"/>
60-69	<input type="text"/>
70-79	<input type="text"/>
80+	<input type="text"/>
Unknown Age	<input type="text"/>

Of the previous day's total number of admissions of adults with suspected COVID-19, total number of admissions where COVID-19 is the primary diagnosis/cause for admission

Total number of adult suspected COVID-19 patients who are vaccinated for which COVID-19 was the primary diagnosis/cause for admission

Total number of adult suspected COVID-19 patients who are partially vaccinated or unvaccinated for which COVID-19 was the primary diagnosis/cause for admission

Total number of adult suspected COVID-19 patients whose vaccination status is unknown for which COVID-19 was the primary diagnosis/cause for admission

Of the total number of adult suspected COVID-19 patients where COVID-19 is the primary diagnosis/cause for admission and who are vaccinated, how many are age 65+

Revised questions

Sum of these three fields should equal total admission in field above

This field should be a subset of vaccinated cases identified above

Previous day's pediatric admissions

Number of patients aged 0-17 with confirmed COVID-19

Number of patients aged 0-17 with suspected COVID-19

Of the total previous Day's number of admissions of confirmed and suspected COVID-19, number of pediatric admissions where COVID-19 is the primary diagnosis/cause for admission

Total number of pediatric patients who are vaccinated for which COVID-19 was the primary diagnosis/cause for admission

Total number of pediatric patients who are partially vaccinated or unvaccinated for which COVID-19 was the primary diagnosis/cause for admission

Total number of pediatric patients whose vaccination status is unknown for which COVID-19 was the primary diagnosis/cause for admission

Revised questions

Sum of these three fields should equal total admission in field above
